

Technical Specification of the Li-ion Battery

1. Battery size 143 mm x 71 mm x 38 mm
2. Battery Pack: 48V x 2000 mAh Li-ion type
3. Nominal Voltage: 48V DC
4. Nominal capacity: 2800 mAh
5. Continuous discharge current: 0.5 Amp
6. Max discharge current: 1 Amp (Few Seconds)
7. Charging Voltage: 58.4 V (Max)
8. Charging current: 1A (Max)
9. BIS approved battery
10. Battery protection circuit for i) Over Charging ii) Shorting iii) Over voltage

Technical Specification of the Battery Charger

1. Battery Charger size 121 mm x 79 mm x 65 mm
2. Battery Charger Input Voltage :- 180 to 230VAC, 50Hz

Battery Charger
