

LEAD SCREW THREADS - METRIC, TRAPEZOIDAL, SQUARE THREADS

BHOLANATH Lead Screws (**BH-LS**) are an excellent economical solution for linear motion requirements. Our precise rolling machines ensure accurate positioning to 0.07mm/300mm and reduced drag torque which gives long life . Accurate movement from 0.5mm to 8 mm is available to suit fine adjustments to high feed linear motion. **BH-LS** are made of stainless steel 303. The **BH-LS** can be used in any kind of linear motion, 3d printers, machine slides, automation assemblies etc.
